Social Media for Creatives

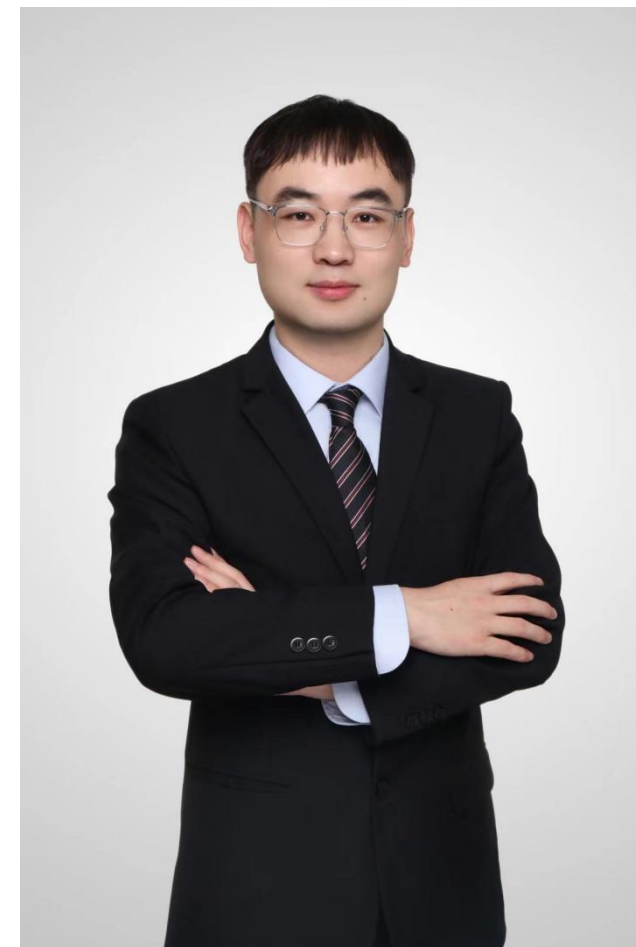

Lecture 10

Existing Online Harms Powered by
GenAI

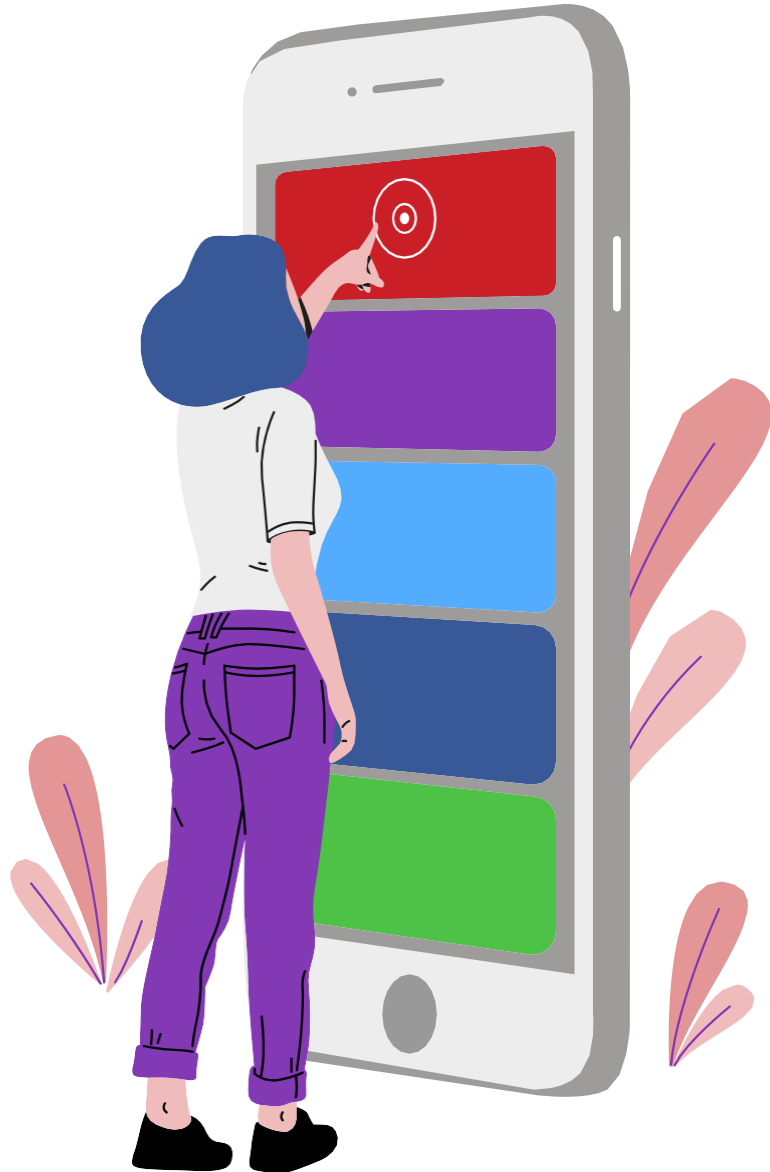

FRI 15:00 – 18:00

Special Arrangement This Week!

CHI'26

Today's Outline

01

Lecturing

James Zhu, Existing Online Harms Powered by GenAI

02

Digital Teacher

Digital Nudge

03

TA Session

Guanxuan Jiang

04

Group Discussion

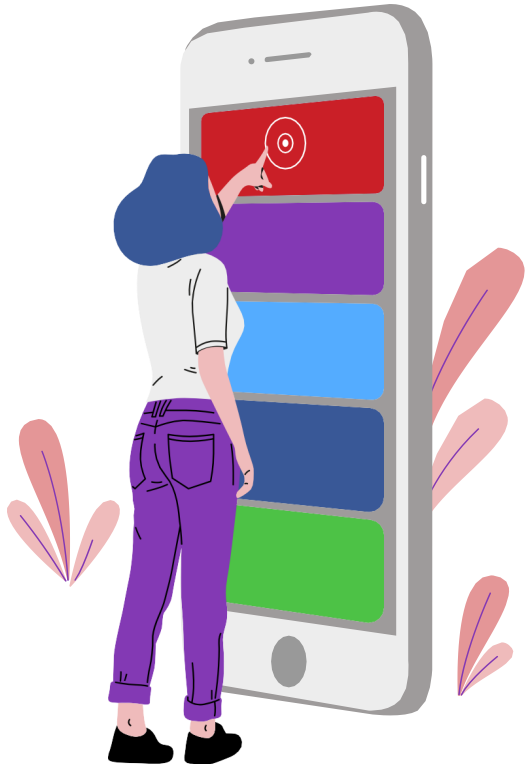

VR Miro Time!

Today's Outline

02

Digital Teacher

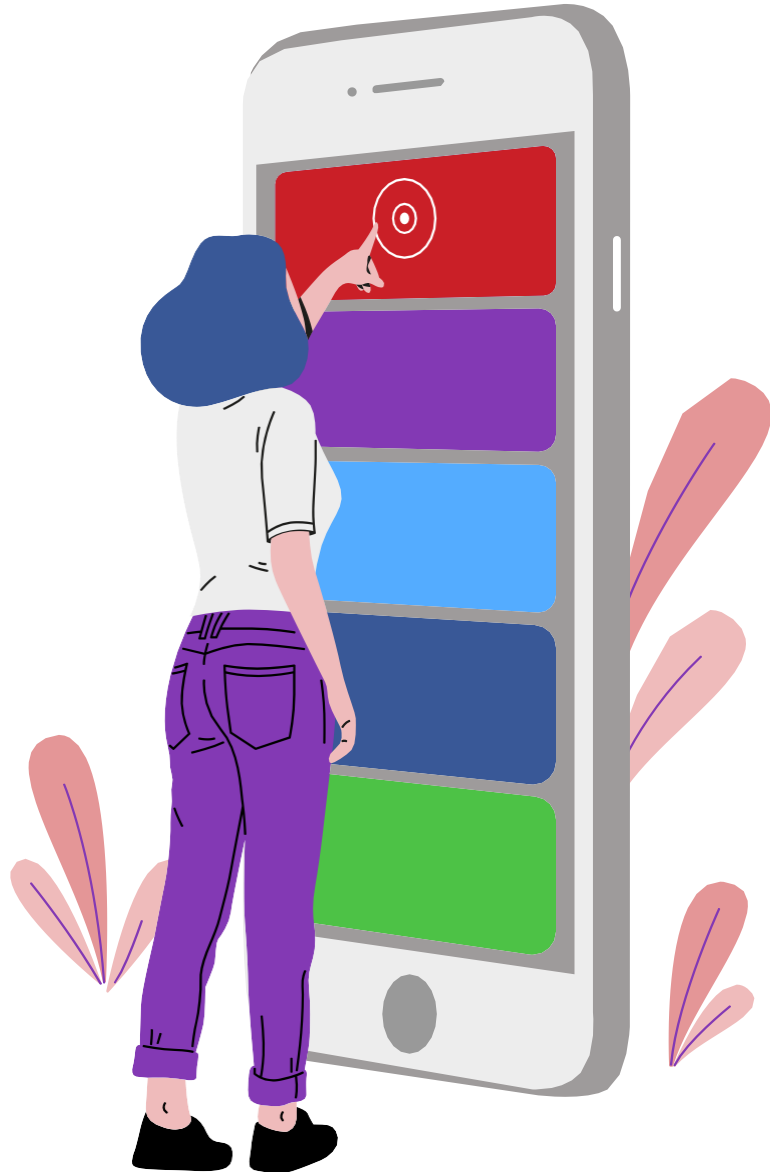

Digital Nudge

BRIAN

- Gender: Male
- Age: 32
- Researcher in Social Computing, particularly the concept and phenomenon related to Digital Nudge

Today's Outline

03

TA Session

Guanxuan Jiang

AI as a Social Actor: Trust, Identity, and Cooperation in Human-LLM Interaction

AI as a Social Actor: Trust, Identity, and Cooperation in Human-LLM Interaction

Insights from a Repeated Prisoner's Dilemma Study

April 17, 2026

Hong Kong University of Science and Technology (Guangzhou)
Center for Metaverse and Computational Creativity (MC²) Lab

Teaching Assistant Talk
Guanxuan Jiang

Participation

Today's Outline

04

Group Discussion

Week 10: Online Harms Powered by GenAI

Task 1: Individual

What AI-powered harms exist (deepfake harassment, synthetic CSAM, AI-generated scams, automated hate speech, impersonation)?

Member 1

Member 2

Member 3

Member 4

How does GenAI scale or personalize harmful content?

Member 1

Member 2

Member 3

Member 4

How do AI-enabled harms differ between HK and Helsinki contexts?

Member 1

Member 2

Member 3

Member 4

One example of GenAI-powered harm in your phenomenon.

Member 3

Member 4

Today's Outline

04

Group Discussion

Week 10: Online Harms Powered by GenAI

Task 2: VR Group

How does GenAI change the nature or scale of online harms?

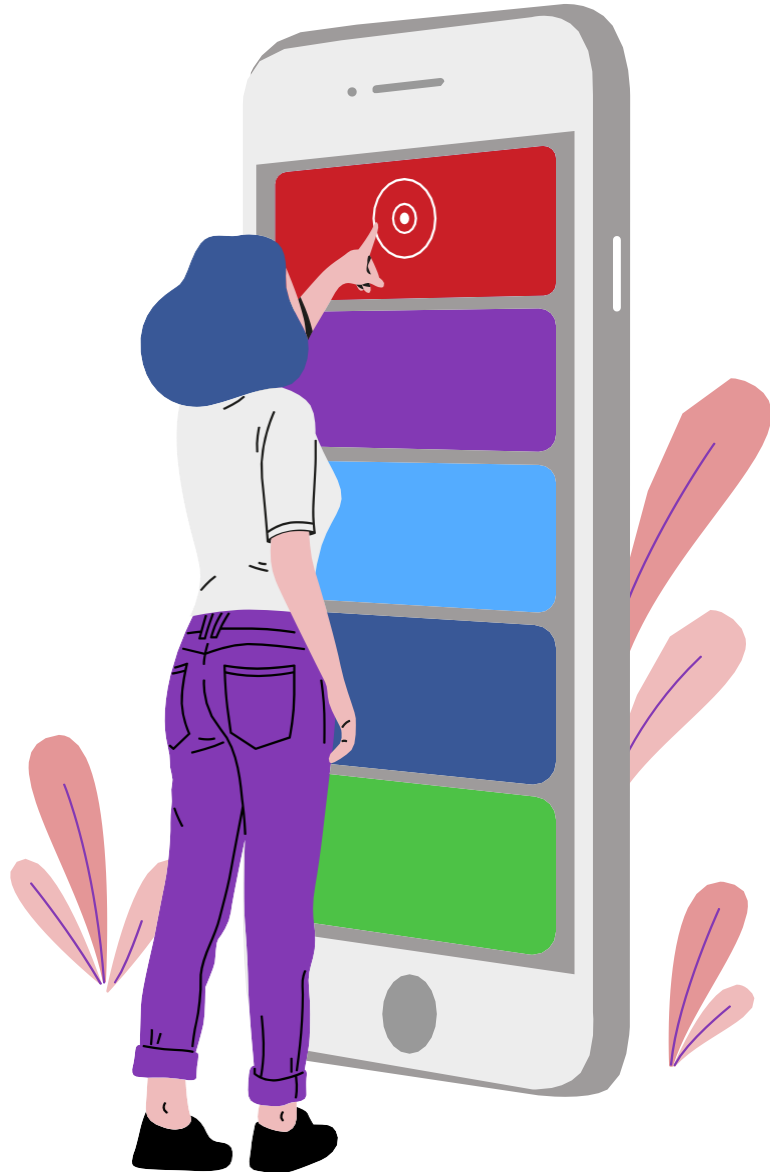

Who is most vulnerable to AI-powered harms?

Do AI-enabled harms manifest differently across contexts?

What would change if GenAI tools had stronger safeguards?

Identify one insight about AI-amplified harm, one regulatory or ethical challenge.

Today's Outline

04

Group Discussion

Week 10: Online Harms Powered by GenAI

Task 3: After VR

Types of GenAI harms present, how they differ from traditional harms, cross-cultural differences in prevalence or response, policy implications, connections to previous weeks.

Answer

Answer

Answer

Answer

Answer

Answer

Answer

Answer

Individual reflection: What GenAI harm concerns you most? What intervention would be most effective?
